An Indian woman by the name of Manabie Sigwit died yesterday afternoon at the Indian camp near the old city gasworks, aged 37 years. An interesting story is told in connection with the recent visit to this city of the Rev. Dr. Russell H. Conwell of Philadelphia. After preaching in the Eastside Baptist church where Mrs. E. G. A special train over the Rio Grande passed through this city last evening, with troops bound for the Presidio, including 100 light artillerymen and 83 cavalrymen from Jefferson barracks, near St. Louis. The troops will be sent to the Philippines.

It will be sad news to the many friends of Tom Jacobson, president of the Columbus Consolidated Mining company, to know that the grim reaper of death has entered his home and taken away an infant daughter, only six weeks of age. The child contracted a cold several days ago which developed into pneumonia. The end came last evening about 8 o'clock in the presence of all members of the sorrowing family, except the father, who was in the east upon an important business errand. THE CONSTITUTION BLOCK. It is Only Partly Vacated—Old Offices and Tenants Remain.

An incorrect impression has been made upon the public mind as to the changes in the Constitution building. A minor portion of the block has been vacated by a few tenants to make way for offices, if they can be rented for that purpose. But the majority of the tenants still remain in occupation. None of them in the south portion nor of the extreme north of the building have removed. The offices held for many years therein by well known professors of different callings—medical, musical, legal, etc., and will be retained. Some confusion has been created on this matter because of the changes and improvements in one section of the block. The public will find the old offices still in use, and telephone numbers the same as usual.

Proper Treatment of Pneumonia.

Pneumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip, and by the proper treatment of these diseases a threatened attack of pneumonia may be warded off. There is no question whatever about this, as during the 30 years and more that Chamberlain's Cough Remedy has been used, we have yet to learn of a single case of a cold or attack of the grip having resulted in pneumonia when this remedy was used. It is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist, says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years, I use it in cases of pneumonia and have always gotten the best results." Sold by all druggists.
